All articles on this blog originate from my head. The content of the articles is mostly mine but some articles are in part or completely written by AI/LLMs. Those articles will be tagged accordingly: no tag for completely original content, [partially-ai-generated](#) for articles with one or many AI generated sentences, and [fully-ai-generated](#) when all the content is AI generated.

I use a variety of LLM providers (in order of frequency of use):

- [GitHub Copilot](#)
- [OpenAI ChatGPT](#)
- [Claude](#)
- [Poe](#)
- [Meta.ai](#)
- [Reka.ai](#)
